

Marine

collection

Hypnos' IMO certified Marine Collection has been developed on the back of a leading market position within the hospitality industry's hotel sector, where Hypnos has helped to create some of the most prestigious, most occupied and most comfortable guest bedrooms.

Hypnos has an illustrious pedigree for creating some of the most comfortable beds and the most memorable sleep experiences for every part of the marine industry's hospitality sector.

1121/09

164.142/1121/WCL MED0259

- The Mariner Deluxe is also International Maritime Organisation (IMO) and Wheelmark certified to satisfy stringent marine fire safety regulations.
- The Mariner Deluxe complies with BS 7177 (Medium Hazard) Crib 5 Fire Retardancy standards.

Mattress Options

- A Hypnos mattress topper can also be added to the Mariner Deluxe to enhance guest comfort.
- Both mattresses can be used on slatted bed frames, where the gap between slats is no greater than 3 inches (7.5cm).

Any Size / Any Shape!

- Hypnos' Marine Division specialises in made-to-measure mattresses. Each Hypnos mattress is a bespoke creation, individually made to order, customised to size and shape needs, providing individual solutions including, but not limited to, traditional marine shapes such as tapered, curved and v-shaped mattresses.

Backed by an unrivalled project management service, from templating and design to manufacturing and installation, plus a disposal and recycling service for old mattresses - a low cost, green and responsible alternative to landfill.

Hypnos reserves the right to alter specifications in the interests of improved design, sustainability and quality.
